

# Info - COVID-19

## Measures to prevent the spread of SARS-COV-2 virus (coronavirus)

### 1. Plan your Journey

Do not go to the airport if you have the following symptoms: fever, cough, shortness of breath, loss of taste or smell

Complete your statement of health prior to checking in. Show it in print or digital

Ensure you have enough non-medical face masks for your journey

### 2. To the airport

Be aware that only travellers may enter the airport terminal buildings

Leave enough time to allow for checks and new procedures

Follow cough etiquette. Wearing a non-medical face mask is mandatory to protect yourself and your fellow passengers

### 3. Departure airport

Ask airport or airline staff if you have any questions or concerns. Follow their instructions

Check in online if possible, bring everything you need for your journey (print or digital) and have all documents ready

Make sure to practice physical distancing. Wearing a non-medical face mask is mandatory. Move your mask safely if an employee (of Customs or Royal Marechaussee) asks for it

### 4. On the plane

Practice hand hygiene, follow cough etiquette and wear a non-medical face mask

Watch the cabin safety demonstration to be aware of specific instructions for your flight

If you feel ill while travelling, inform crew

Limit your movement in the cabin to that essential for well-being

### 5. Arrival airport

Practice physical distancing, hand hygiene and cough etiquette and wear a medical face mask. Show your health statement. Our staff can ask for it

Collect your bags and leave the terminal building immediately

Reduce the risk of virus transmission by minimising interaction with people in the arrival terminal. Are you being picked up? This person is waiting for you outside the terminal, for example at the K + R places
